EXPERIENCE

Web Developer Intern — May 2023 - June 2023
DUCEME Technologies Private Limited — *Surat, Gujarat, India*

- I actively contributed to the development and testing of a web application and Website called Paywell using Angular and react.
- My role involved close collaboration with the developer team, where I participated in both the development and testing phases to ensure the app's functionality and performance in a live environment.
- worked on the development and testing of a live web application and website named **PayWell.**

PROJECTS

MERN Stack Restaurants Application (Link)
Tech Stack : React.js, Node.js, MongoDB, Express.js, JWT and Bootstrap

- Developed Restaurants MERN project which is a full-stack web application that enables users to browse, order, and manage restaurant listings..
- Administrators have the ability to add, update, and delete restaurant information, ensuring the database remains current.
